BONDADA WINGS

TOWARDS A CLEANER, SMARTER FUTURE

www.bondada.net

Editorial Prelude

Karun Kumar Yedida
Manager – Public Relations

*"Every milestone begins as a mindset,
when values and vision move in unison."*

This volume celebrates a mindset of progress beyond metrics, reflected in our choices, discipline, and shared conviction. At Bondada Group, growth is rooted in values, shaped by clarity, and powered by our people.

From breakthrough infrastructure to digital empowerment, every story signals momentum with meaning. Each initiative, whether national or local, builds lasting value.

This publication reflects who we are, not just as professionals, but as contributors to something larger. Let it inspire us to grow with intention and lead with purpose.

Keep growing. Keep leading. Build what matters.

Bondada Ethos

Welcome Note

Fun Activities

Corporate Environment

Bondada Premier League

At the Helm

"Growth is never by mere chance; it is the result of forces working together."

Our collaboration has always been our greatest catalyst. Every breakthrough in this quarter echoes the unified force of our people, purpose, and performance, driven by operational excellence and long-term vision.

Our continued recognition as a Great Place to Work® is not merely an accolade; it affirms our deeply rooted culture of trust, belonging, and collective excellence.

On the digital front, the successful commissioning of our 1,300th BSNL 4G site marks a proud stride in advancing Bharat's connectivity. Our comprehensive rollout across Lakshadweep showcases our engineering finesse and ability to deliver even in the most remote and challenging geographies.

In renewable energy, securing the 500MWh Battery Energy Storage System project from TNGECL and TGGENCO signifies a pivotal leap in our clean energy journey, reinforcing our commitment to sustainable transformation at scale.

Additionally, Bee-lite's attainment of Category-1 approval from the Government of Telangana unlocks greater opportunities in public lighting and smart urban infrastructure.

We are not just fulfilling expectations, we are shaping new benchmarks. Each initiative we undertake is a building block toward a future that is intelligent, inclusive, and indigenously powered.

As we look ahead, let's continue to think boldly, act with clarity, and lead with conviction. The horizon is bright, and the purpose that drives us is stronger than ever.

Leadership

A Legacy Fueled by 13 Years of Vision

Dr. Bondada Raghavendra Rao

Chairman & Managing Director

Fiscal Focus

Shri Satyanarayana Baratam
Director & Chief Financial Officer

“Numbers tell a story. Growth tells a legacy.”

This quarter, our financial performance has not only met expectations, but it has redefined them. Our Standalone turnover surged by 127%, while Consolidated Turnover climbed by 136% compared to the same quarter of the previous financial year. These results reflect more than strong execution; they validate the strategy, discipline, and ambition that continue to drive our growth.

More notably, our quarterly revenue surpassed last year’s first-half earnings by 8%, setting a new benchmark in execution velocity, operational discipline, and market responsiveness. This milestone underscores our ability to anticipate market shifts and align execution in real time with emerging opportunities.

We have also seen stronger-than-anticipated inflows from our renewable energy and telecom verticals, reinforcing the scalability and resilience of our diversified portfolio. Strategic cost optimization initiatives, coupled with advanced digital finance automation, have significantly strengthened our bottom-line efficiencies, adding velocity without compromising control.

These numbers are not just indicators; they are reflections of coordinated ambition, resilient systems, and financial clarity. Our robust financial architecture is built to absorb complexity, deliver at scale, and unlock multi-sectoral growth across clean energy, telecom, and infrastructure.

With a strong and growing order book, we are well-positioned to sustain this upward trajectory in the quarters ahead.

As we power forward, our focus remains on long-term value creation, anchored in fiscal integrity and decisive execution. The story unfolding is one of momentum, precision, and purpose, and it's only just begun.

Guiding Vision

Smt. Sujata Tripurana

Vice President, Bondada Green Engineering Pvt Ltd

“Strategic Vision in Action”

Smt. Sujata Tripurana brings over two decades of expertise in infrastructure, sales, and procurement to her role as Vice President at Bondada Green Engineering. A diploma holder in Electronics and Communication from the State Board of Technical Education, Andhra Pradesh, her career is marked by operational excellence and strategic foresight.

She began at Kadevi Engineering, managing raw material sourcing and payments, then rose to sales leadership at Aster Teleservices, earning accolades as a top performer. At Ganges Internationale, she led vendor approvals and secured key tenders across domestic and export markets.

Her global exposure came at Tawasol Telecom, Oman, where she handled competitive bids for Omantel. At Shah Infra, she drove telecom and transmission sales, scaling volumes and market presence.

Now at Bondada Green Engineering, she leverages her diverse background to build market relationships, enhance operational agility, and drive sustainable growth. Her leadership propels Bondada’s push toward global competitiveness and infrastructure innovation.

Rooted in purpose and performance, she continues to elevate the infrastructure value chain one strategic move at a time.

Dr. Mahesh Anand Patil

Vice President – Bondada E&E Pvt Ltd

“Powering Progress at Bee-lite”

With over two decades of cross-sector experience, Dr. Mahesh Patil brings transformative leadership to Bee-lite as Vice President, Operations. A certified Independent Director and technology strategist, he has driven innovation at organizations like GE, Hero Electric, Crompton Greaves, and Amphenol.

At Bee-lite, Dr. Patil leads operations across R&D, manufacturing, sourcing, and quality, focusing on accelerating product delivery, enhancing systems, and embedding smart manufacturing practices. His direction is critical to Bee-lite’s mission of delivering solar-driven, sustainable lighting solutions aligned with Bharat’s clean energy vision.

His legacy includes establishing NABL-certified labs, developing EV charging infrastructure, and contributing to renewable energy systems. Notably, he helped create Bharat’s first ARAI-approved high-speed electric bike and the first electric bus prototype with IIT Delhi and MNRE.

Armed with a Doctorate in Business Administration, a Master’s from VNIT Nagpur, and executive credentials from XLRI and INSEAD, he is also a published author and mentor.

His vision is shaping Bee-lite’s evolution, engineering smart, scalable, and future-ready solutions for a sustainable Bharat.

**Wisdom
that
Leads**

Marauders of Hope

Dr. Bondada Raghavendra Rao

Chairman & Managing Director

Growth is never just about numbers. It is defined by the lives we elevate, the systems we refine, and the principles we stand by. We pursue every goal with integrity. Each milestone reflects our intent not merely to scale, but to build a legacy anchored in trust, strength, and National advancement.

Strategic Wins

**Great

Work®**

Certified

APR 2025-APR 2026

INDIA

"Bondada Group Retains Great Place to Work® Certification"

We are pleased to share that Bondada Engineering Limited has once again earned the Great Place to Work certification for the period April 2025 to April 2026.

This achievement reflects the values we stand by—trust, integrity, and people-first leadership. It is a celebration of the culture we have nurtured together, where every Bondadian feels empowered to grow, contribute, and lead with purpose.

As we continue to evolve, this recognition serves as a reminder that our greatest strength lies in our people. Congratulations to every team member who made this possible.

"Bondada Powers BSNL's Digital Leap: 300th 4G Site Commissioned in Kerala"

We are proud to support BSNL India in commissioning its 300th site under the 4G Saturation Project in the Kerala Circle.

This milestone highlights the strength of our partnership and shared vision to connect Bharat's most remote regions through reliable telecom infrastructure.

As a trusted Infrastructure as a Service Provider, we remain committed to bridging the digital divide and empowering rural communities.

Our sincere thanks to the BSNL 4G team for their collaboration and trust in delivering this National mission.

"Bondada Lights Up Lakshadweep with 4G, A Milestone in Remote Connectivity"

We are honoured to share a remarkable milestone achieved by Bondada Group, the successful 100 per cent rollout of BSNL's 4G Saturation Project across the Lakshadweep Islands.

This was one of the most logistically demanding projects we have taken on. From sailing across rough seas to setting up infrastructure on uninhabited islands, our teams pushed boundaries to make the impossible, possible.

This project was not just about connectivity, it was about National service, inclusion, and delivering on a promise to bring digital access to the farthest parts of Bharat.

In recognition of this achievement, the Chief General Manager of BSNL Kerala and Lakshadweep Circle presented Bondada Group with a memento of appreciation.

To every member of the team who made this mission a reality, thank you for exemplifying the Bondada spirit. This success belongs to you.

Bondada Group Secures 400MWh BESS Project

From #TNGECL

Project Value: ~₹836 Cr

***"Pioneering Energy Storage: Bondada Secures 400MWh BESS Project"***

We have secured a landmark ~₹836 crore Battery Energy Storage System (BESS) project from Tamil Nadu Green Energy Corporation Limited. Designed under the build-own-operate model, the project will deploy 400MWh of advanced BESS infrastructure across Vellalaviduthi and Thennampatty substations.

This initiative supports round-the-clock renewable energy access and peak load management, accelerating Bharat's journey toward its 2030 non-fossil fuel capacity goals. With over 800MW commissioned and 2.3GW in progress, this marks Bondada's largest energy storage engagement to date.

More than a project, it is a defining step in grid modernization, affirming Bondada's commitment to scalable, sustainable, and future-ready energy infrastructure. We thank TNGECL for their trust as we set a new benchmark in battery storage excellence. At Bondada Group, we do not just build infrastructure; we engineer solutions that power National transformation.

"Building Bharat's Data Centers with Precision, In Collaboration with Microsoft"

Bondada Group has secured a ₹2.3 crore General Mechanical, Electrical, and O&M project for the Microsoft Data Center in Hyderabad, reinforcing its role in Bharat's digital transformation.

This mission-critical engagement includes integrated mechanical and electrical systems along with facility operations support, underscoring the precision and performance demanded by high-tech infrastructure.

The project highlights the trust placed in Bondada's ability to deliver reliable, scalable, and uptime-focused services. As data centres become central to digital economies, our collaboration with Microsoft reflects the value of dependable partners in enabling technological progress.

This strategic addition strengthens Bondada's footprint in the high-tech sector and complements its leadership in telecom, renewables, and critical infrastructure.

Every milestone reflects our commitment to engineering solutions that are built for today and ready for tomorrow.

"Lighting the Way Forward: Bee-lite Secures Category-1 Approval"

Bee-lite, the lighting division of Bondada Group, has received Category-1 approval under the State Schedule of Rates from the Government of Telangana. This endorsement empowers Bee-lite to contribute to major public infrastructure and smart city projects across the state with its energy efficient LED solutions. The milestone reflects the strategic leadership of Dr. Bondada Raghavendra Rao, Mr. Satyanarayana Baratam, and Mr. Ravi Guturi. Built on innovation and engineered for performance, Bee-lite continues to play a vital role in shaping sustainable urban development and advancing India's clean lighting transformation.

"South Central Railway Approves Smart Brix and Shintech Products"

Bondada EcoBuild Pvt Ltd has earned a notable endorsement with Smart Brix AAC blocks and Shintech uPVC doors, windows, and frames now approved by South Central Railway in the Revised Brands and Makes List 2025. Recognized for their quality, thermal efficiency, and BIS-compliant performance, these products are poised for wider public sector adoption. This milestone, driven by the leadership of Dr. Bondada Raghavendra Rao and Mr. ATV Varaprasad, reinforces Bondada EcoBuild's commitment to sustainable infrastructure and positions the brand at the forefront of railway and government construction initiatives.

Dialogues & Distinctions

"Honouring 150 Years of Financial Legacy"

Our Chairman and Managing Director, Dr. Bondada Raghavendra Rao, attended the 150th anniversary celebrations of the Bombay Stock Exchange, a defining institution in Bharat's financial history.

His presence underscored Bondada Group's growing engagement with the Nation's economic journey and its institutions of progress.

Dr. Rao's entrepreneurial rise echoes the BSE's own legacy of transformation and ambition, built on trust, innovation, and vision.

As we celebrate this historic milestone, we join the business community in applauding BSE's contribution to shaping Bharat's capital markets and reaffirm our commitment to advancing a future defined by opportunity and leadership.

"Forging Connections that Inspire Progress"

True leadership lies not only in direction but in the ability to foster meaningful connections. In a recent exchange of ideas and perspectives, our Chairman and Managing Director, Dr. Bondada Raghavendra Rao, met with Dr. Faruk G. Patel, Chairman and Managing Director of KP Group, and A. S. Gehlot, IPS, Chief Commissioner of Police, Surat.

This interaction reflected the spirit of collaboration we champion at Bondada Group—where relationships are built on vision, dialogue, and shared purpose. Such engagements continue to shape our path toward long-term progress, trust, and sustainable impact.

"Advancing Defence Synergies"

In a decisive step toward innovation in national security, our Chairman and Managing Director, Dr. Bondada Raghavendra Rao, engaged in a strategic dialogue with senior defence dignitaries to explore emerging opportunities in defence systems and drone technology.

The conversation reflected a shared commitment to strengthening Bharat's self-reliance in advanced defence infrastructure. As Bondada Group continues expanding its presence in critical sectors, this meeting reaffirms our role in driving innovation, supporting indigenous capabilities, and contributing meaningfully to the Nation's long-term security and technological edge.

The future of defence, we believe, begins with bold vision and meaningful collaboration.

"Powering a Greener Future with Krisol Solar Infra"

A promising stride in Bharat's clean energy journey began with the inauguration of Krisol Solar Infra Pvt. Ltd., where our Chairman and Managing Director, Dr. Bondada Raghavendra Rao, was invited as Chief Guest. Spearheaded by Mr. Jakkula Satyanarayana of Satya Enterprises, this initiative signals a strong push toward sustainable energy solution.

The event brought together visionaries committed to transforming Bharat's energy landscape through collaboration, innovation and purpose-driven leadership. Krisol Solar Infra is set to make a mark in the renewable sector with its focus on quality, scale and environmental responsibility.

Dr. Rao's presence underscored Bondada Group's continued investment in partnerships that align with the Nation's green goals. It was not just an inauguration, it was a declaration of collective intent to support Bharat's energy transition and reinforce our commitment to long-term, sustainable growth.

"Powering Progress at IITEX 2025"

We participated as the Renewable Energy Partner at the Industrial Innovation Technology Expo (IITEX 2025) hosted by The Federation of Telangana Chambers of Commerce and Industry. The event served as a platform to showcase our integrated infrastructure capabilities across green building materials, energy efficient lighting, and smart utility solutions.

Through our subsidiaries, Bondada EcoBuild, Bee-lite, and ATPOLE, we presented innovative technologies that support industry in advancing toward net zero goals. Our presence reinforced a shared vision for sustainable industrial growth in Telangana.

The moment was further elevated as Shri D. Sridhar Babu, Hon'ble IT Minister of Telangana, Honoured us with a memento for our contribution to innovation in clean infrastructure.

At Bondada Group, we believe progress is powered by purpose. Our participation at IITEX underscores our continued commitment to shaping a sustainable, future-ready Bharat.

Synergy in Motion

"Dr. Raghavendra Rao Unveils 17.6MVA Solar IDT by Thota Group for SCCL's Green Leap"

We marked a key moment in Bharat's renewable energy journey with the launch of a 17.6MVA Solar Inverter Duty Transformer, unveiled by our Chairman and Managing Director, Dr. Bondada Raghavendra Rao. Engineered by TCC Energy Solutions under Thota Group of Companies, this state-of-the-art transformer is built for Singareni Collieries' 67.5MW solar project in Mandamarri.

Tested for peak efficiency and built with German LABEVO Vacuum Autoclave and HMI-IED technology, this multi-winding transformer sets a new benchmark for performance, durability, and zero-failure reliability. Its deployment marks a leap toward strengthening large-scale solar implementation and supports the Nation's ambition for clean, round-the-clock energy.

Bondada Group congratulates TCC Energy Solutions and Thota Group on this significant innovation. As partners in progress, we continue to contribute to a resilient and sustainable energy ecosystem.

"100MW Solar Momentum Builds as Bondada & KP Group Conclude Strategic Review"

Bondada Group hosted a project review meeting for the 100MW Mahagenco Solar Power Project at Udapur, Nagpur district. Senior leaders from KP Group and Bondada's core solar team came together to assess progress, align execution frameworks, and reaffirm safety and quality benchmarks.

The session reinforced a unified vision for timely delivery and engineering excellence in renewable infrastructure.

This collaborative approach continues to define our partnerships. Bondada Group appreciates the trust and engagement of KP Group as we move forward in strengthening Bharat's sustainable energy landscape.

“CXO Meeting Aligns Vision with Execution”

Our CXO meeting, led by the CMD, brought together senior leadership to align on business growth, sales momentum, and strategic priorities. A focal point was the Group’s flagship 2GW Solar Power Project in Andhra Pradesh, reinforcing our clean energy leadership and 2030 vision. The discussion also spotlighted operational scalability and risk preparedness.

Mr. Kulakarni Gururaj, Deputy GM – Admin, led a comprehensive session on corporate insurance policies, covering employee welfare and asset protection for high-value infrastructure.

The conclave reaffirmed our unified commitment to executional excellence, sustainable impact, and bold expansion.

“Bondada & Waaree Powers 2 GW Solar Leap”

Waaree Energies presented Bondada Group with the first lot of Topcon M10 solar cells from their 5.4GW facility, an acknowledgment of a partnership grounded in shared values and clean energy innovation. This gesture coincides with Bondada securing a landmark 2GW solar power project from the Government of Andhra Pradesh, marking a significant stride in Bharat’s renewable journey.

The collaboration reflects a mutual commitment to delivering future-ready energy solutions that support national sustainability goals. Together, we continue to drive impact by transforming technology into real-world progress for a greener tomorrow.

“Ground-Level Focus Drives Execution Excellence at Singareni”

Bondada Group’s 67.5MW AC (88.7MW DC) solar project at Mandamarri, Telangana, awarded by Singareni Collieries Company Limited for ₹433.91 crore, is progressing with precision and pace. Reinforcing a culture of on-ground leadership, the Chairman and Managing Director visited the site to review progress and emphasize safety, quality, and timely delivery.

This engagement reflects the Group’s commitment to execution excellence and high-impact infrastructure. The project marks a significant step toward strengthening Bharat’s clean energy capabilities and advancing the Nation’s sustainable energy goals through leadership-driven, team-empowered execution.

Work-in-Progress

"Illuminating Rural Bharat: Bee-lite Powers 621+ Panchayats in Bihar."

Bondada E&E Pvt Ltd, through its flagship lighting brand Bee-lite, is powering Bharat's grassroots progress under the Mukhyamantri Gramin Solar Light Yojana, led by the Bihar Renewable Energy Development Agency (BREDA).

With over 621 Panchayats covered and 12,000 solar street lights installed, the initiative is bringing light—and life—to the heart of rural Bharat. The project, valued at ₹108 crore, marks a bold step toward inclusive infrastructure that reaches the last mile.

Every pole planted strengthens Bharat's vision of Viksit 2047, enhancing public safety, enabling mobility, and empowering livelihoods in under-served regions.

This isn't just rural electrification. It's a mission aligned with Atmanirbhar Bharat, where energy independence meets human impact.

Bee-lite's footprint in Bihar is proof that when infrastructure is purpose-driven, progress follows. And Bondada remains committed to expanding this impact, one Panchayat at a time.

The light we install today is the opportunity we ignite tomorrow. Rural Bharat is not catching up, it is rising, illuminated.

"Bondada-Mahagenco Drive 341MW Rural Solar Revival under MSKVY 2.0"

Bondada Group is proud to partner with Maharashtra State Power Generation Co. Ltd. (Mahagenco) for a transformative ₹1,522 crore solar initiative under the Mukhyamantri Saur Krushi Vahini Yojana (MSKVY) 2.0.

This decentralized, farmer-first energy program spans 27 sites across Ahilyanagar, Chhatrapati Sambhaji Nagar, Jalgaon, and Amravati, delivering 341MW AC of localized solar power within a 5 km radius of agricultural substations.

The core purpose: empowering farmers with reliable daytime electricity, reducing dependency on erratic night-time supply, and powering agricultural productivity through clean energy.

This initiative addresses a long-standing energy equity gap, positively impacting over 45 lakh agricultural consumers. With strategic execution, on-ground employment generation, and rural electrification impact, Bondada is not just building solar plants, we are powering Bharat's farm lands with resilience, reliability, and renewable intent.

This is rural revival, engineered with purpose. And it begins with the power of light.

“Bondada & NLC Power 650MW Solar Transformation Where Vision Meets Land”

Bondada Group is rewriting the benchmarks of scale and ambition with the execution of the prestigious 650MW NLC Solar Power Project, across two transformative sites valued at ₹1,020.73 crore. At Neyveli, Tamil Nadu, the 50MW site, valued at ₹81.34 crore, marks Bharat's first solar installation atop dumped lignite mine soil at 11kV, setting a National precedent for reclamation-based clean energy infrastructure.

In Khavda, Gujarat, Bondada is leading the charge at a staggering 600MW site at 33kV within the 30GW Khavda Renewable Energy Park, the largest RE park in the world, five times the size of Paris. With a project value of ₹939.40 crore, this installation involves 640 km of high-voltage cable laying to connect the plant with proposed PSS locations, showcasing high-voltage engineering excellence.

Employing 120 internal staff and 500 external workforces, the project is the largest single-site EPC execution in Bondada's history, embodying the Make-in-India ethos through industrial innovation and job creation.

Each megawatt deployed reflects our unwavering commitment to Viksit Bharat 2047, transforming not just landscapes but livelihoods, this is infrastructure for the Nation, engineered with purpose and built to last.

“Singareni Reclaims Solar Potential with Bondada's 67.5MW Green Transformation”

In a region once sustained by coal, Bondada Group is leading a clean energy transformation with its ₹345 crore EPC project, plus ₹35 crore allocated for 10 years of O&M, for Singareni Collieries Company Limited (SCCL). Spread across four critical sites in Mandamarri and Bellampally, this 67.5MW / 88.7MWp solar installation is reclaiming dormant, government-leased mining lands and repurposing them into high-impact renewable energy zones.

In line with the “Make in India” vision, the project is fully powered by domestically sourced components, IDTs from Thota, solar modules from Gautam Solar, MMS and transmission towers from Bondada Green Energy (BGPL), and 67.5 MVA power transformers from Transformers & Rectifiers, among others. This approach strengthens indigenous capacity, enhances supply chain agility, and contributes to National self-reliance.

With 400+ employment opportunities generated and a strategic boost to regional energy equity, Bondada is not merely building solar plants, it is revitalizing legacy landscapes and reinforcing Bharat's renewable ambitions.

From land reclamation to energy innovation, this project embodies the future of sustainable infrastructure.

Building the Future with EcoBuild

“Where Sustainable Materials Meet Market Momentum”

At Bondada Ecobuild, innovation isn't an aspiration, it is our baseline. As we reviewed our expanding footprint this quarter, one thing stood clear: we are not just in the business of building materials, we are enabling the future of Bharat infrastructure.

From AAC blocks to smart fenestration systems, every product in our portfolio is engineered to solve real-world problems with agility, durability, and sustainability. Our value proposition doesn't end at “Make in India”, it begins with it.

Take truBrix for instance, these lightweight AAC blocks are revolutionizing how developers approach high-rise construction, offering seismic safety, thermal insulation, and faster build times. In a nation racing toward smart cities and green buildings, truBrix isn't just timely, it is essential.

Then there is SmartCare Wall Putty, SmartFix Block Jointing Mortar, and SmartPlast Ready Mix Plaster, a trio of next-gen surface solutions that offer consistency, longevity, and application ease that contractors swear by. These are products made for the field, not the shelf.

And when it comes to finishing touches, our truVU (uPVC) and Alurise (Aluminium) windows and doors combine aesthetics with acoustic insulation and weather resistance, making them ideal for both premium residences and large-scale urban housing.

We have backed this innovation with execution muscle. Our state-of-the-art plant in Ankireddypally, robust supply chain, and a growing roster of marquee clients, Shapoorji Pallonji, Preston, My Home Group are proof that Bondada Ecobuild is not just scaling. We are leading.

To our investors and partners:

This is more than product diversification, it is an integrated ecosystem. As Bharat's \$738B construction industry leans toward prefabrication, eco-materials, and faster turnaround, we are well-positioned to capture value across verticals. Our expansion strategy is not just market-driven, it is margin-smart and mission-aligned.

At Bondada Ecobuild, every block, every bag, and every beam is a step toward a greener, faster, smarter Bharat.

Let's not just build. Let's build with intent.

Our Customized Innovations

"The Atpole Innovation Edge for Engineering Tomorrow"

At Atpole, we don't just manufacture components, we engineer possibilities.

Radar Towers manufactured at Bondada Green Engineering Pvt Ltd for Data Patterns, reinforcing our role in advancing mission-critical infrastructure for Bharat's defense and aerospace sectors. Our precision-built structures speak volumes about our growing stature in high-tech manufacturing.

Furthering our innovation journey, Atpole successfully developed 6-inch and 10-inch BLDC hub motors, both ICAT-certified, built to meet the rigorous demands of electric mobility and defense-grade reliability. These motors aren't just products, they are proof of our precision engineering DNA.

Our R&D ecosystem continues to unlock new frontiers:

- Baby bottle filling and cleaning systems for the healthcare and hygiene segment
- 20mm BLDC fan motors designed for compact, high-efficiency cooling
- 6-inch HUB motors tailored for e-bicycles and patient mobility tricycles

Every product at Atpole is purpose-built—with a focus on sustainability, scale, and indigenous innovation. For investors, it is a growing portfolio of IP-led products; for industries, it is reliable engineering; and for Bharat, it is another leap toward self-reliance.

As we look ahead, Atpole remains steadfast in its mission: to power progress through purposeful innovation.

Mission in Motion

"Bharat's Only ICCC for BSNN 4G, Engineered by Bondada"

At Bondada Engineering Limited, we do not just build infrastructure, we build intelligent systems that manage it at scale. I'm proud to share that we have successfully designed, developed, and commissioned Bharat's only Integrated Central Command Center (ICCC) for the BSNN 4G Saturation Project, right here in Hyderabad.

This ICCC is not merely a control room, it is the operational nerve center of the entire BSNN 4G rollout. With oversight of more than 26,000 telecom sites across the country, this command center ensures real-time visibility, performance tracking, and uptime assurance across the vast BSNN network.

What sets this project apart is the integration of Video Management Systems (VMS), a first-of-its-kind addition for a public telecom initiative of this magnitude. The VMS capability brings unprecedented transparency, situational awareness, and automated fault resolution, significantly boosting operational efficiency and control.

This is not just about managing telecom assets, it is about creating a centralized intelligence hub that supports National connectivity, public service delivery, and digital empowerment.

For our investors and stakeholders, this milestone reflects Bondada's capability to lead complex, mission-critical projects at scale. It is proof of our engineering precision, our agile execution model, and our commitment to building infrastructure that is intelligent, scalable, and future-ready.

As Bharat accelerates into a digital-first future, we at Bondada are proud to lead from the front, designing systems that see further, respond faster, and lead smarter.

Inside Bondada

"Bondada Group Convenes Its 13th Annual Review Meeting"

The 13th Annual Review Meeting of Bondada Group served as a moment of reflection, recognition, and realignment. It brought together the leadership team and stakeholders to assess the milestones of the previous fiscal year and chart a strategic course for the year ahead.

The session was graced by the presence of our Chairman and Managing Director, Shri Dr. Bondada Raghavendra Rao, Director Mr. Satyanarayana Baratam, Non-Executive Director Smt. Neelima Bondada, Independent Director Mr. Pasupuleti Venkata Subbarao, and Independent Director and Chief Guest, Shri. K. N. Kumar (Retd. IAS). Their insights enriched the dialogue with clarity and vision.

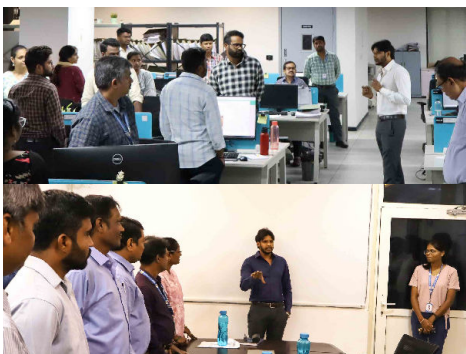

Dr. Rao addressed the gathering with a message rooted in purpose and unity. He underscored that true leadership is measured by responsibility, not designation. Drawing inspiration from Dr. A. P. J. Abdul Kalam, he reminded everyone that achieving excellence demands undivided focus and commitment.

The review encompassed performance analysis, operational efficiency, and future growth strategies across all verticals. It was more than a checkpoint, it was a reaffirmation of Bondada Group's purpose-driven culture. To every team member, partner, and supporter, your contribution accelerates our progress. As we step into the next chapter, we carry forward our legacy with renewed energy and ambition. Together, we rise higher.

"Celebrating Visionary Leadership"

Wishing Mr. Pradeep Alaparthi a very happy birthday. His commitment to quality and forward-thinking leadership has been instrumental in shaping Stellar Homes Pvt Ltd into a name defined by trust and distinction. Through every project, he brings vision, precision, and purpose, turning architectural dreams into enduring realities. On this special occasion, we extend our heartfelt wishes for continued success, fulfilment, and new milestones in the journey ahead.

"Engineering the Inner Self"

At Bondada Group, we believe true transformation begins within. Through the Inner Engineering Campaign, we embark on a 12-week journey to explore twelve timeless human values, from loyalty and humility to leadership and empathy. Each week invites personal reflection, not for applause, but for awareness. The goal is not to outperform, but to align action with purpose. We begin with loyalty, keeping one's word, honouring commitments, and staying true to self and team. Manager, Public Relations, Mr. Karun Yedida led this initiative, reinforcing our belief that values in practice drive progress with purpose.

"Leadership That Listens, Culture That Connects"

At Bondada Group, leadership is not confined to boardrooms, it is built through presence, listening, and authentic engagement. When CMD Dr. Bondada Raghavendra Rao visits workstations and interacts with employees, he is doing more than checking in, he is shaping culture. These moments of genuine dialogue reflect a leadership ethos rooted in empathy, trust, and inclusion.

Such interactions reinforce a workplace where dignity is not aspirational, it is practiced daily. This initiative, championed by Mr. Karun Yedida, Manager – Public Relations, exemplifies the Group's belief that organizational strength grows from cultural depth. When leaders listen, people feel valued, and valued people build lasting legacies.

"Building a Better Tomorrow: Celebrating Safety & Health Week"

At Bondada Group, safety isn't a protocol, it is a principle. It is the foundation upon which performance, well-being, and progress are built. The inauguration of Safety and Health Week reflected this ethos, bringing together leadership, experts, and employees to embed safety and wellness deeper into our operational DNA. Launched by our Chairman and Managing Director, Dr. Bondada Raghavendra Rao, alongside CFO Mr. Satyanarayana Baratam and the senior leadership team, the week began with a resolute message: that every individual plays a part in creating a culture of protection and purpose. Mr. Rajesh Palepu, Vice President – Quality and Safety, led the charge, amplifying the call for a workplace where vigilance is instinctive and safety is second nature.

From guided meditation and yoga to expert sessions on nutrition, fitness, and emergency response, the campaign offered a 360° approach to well-being. A collaborative health check-up camp and hands-on fire drill further illustrated that preparedness is not a one-time task, it is a continuous discipline. Through shared learning, focused leadership, and intentional practices, Bondada is not just building infrastructure, it is building resilience, inside and out.

"Celebrating a Pillar of Financial Leadership"

Bondada Group extends warm birthday wishes to Mr. Baratham Satyanarayana, our Chief Financial Officer. His unwavering commitment to fiscal discipline, strategic foresight, and operational clarity continues to guide the Group's sustainable growth. With a steady hand in financial governance and a deep understanding of evolving markets, he plays a pivotal role in shaping Bondada's journey toward long-term value creation. On this special day, we recognize not only his expertise but the integrity and balance he brings to every decision. Wishing him continued success, good health, and another remarkable year of impact.

"Bondada Group Backs Masula Fest 2025"

Bondada Group proudly supported Masula Fest 2025, a landmark beach festival at Manginapudi Beach, Machilipatnam, that spotlighted the cultural vibrancy and coastal promise of Bharat. The event served as a powerful platform to promote sustainable tourism, regional development, and local enterprise.

By partnering in this initiative, Bondada Group reaffirmed its belief that infrastructure is not just about building assets but shaping aspirations and National identity. Supporting such community-led movements aligns with our broader mission, fostering economic empowerment, cultural preservation, and a shared vision for a more connected, prosperous Bharat.

"Inspiring Future Leaders at IKON Youth Fellowship"

Bondada Group reaffirmed its commitment to youth empowerment through active participation in the IKON Youth Leadership Programme. During an engaging session, Dr. Bondada Raghavendra Rao shared valuable perspectives on leadership, perseverance, and emerging opportunities in renewable energy.

Joined by respected dignitaries including Shri. K. N. Kumar (Retd. IAS), Dr. Andal Ammisetti, Mr. Mendu Chakrapani, and Mr. Sudhir Mandali, the dialogue focused on building a resilient and self-reliant Bharat.

Dr. Rao encouraged young minds to embrace innovation, pursue excellence, and lead the Nation's transition toward sustainable growth. The experience was a celebration of potential, purpose, and progress.

"ATPOLE Manufacturing Plant Inaugurated at Bhogaram"

ATPOLE marked a significant stride in its industrial journey with the inauguration of its new manufacturing facility at Bhogaram, Bondada Industrial Park-I. The ceremonial launch was led by Directors Jagadish Meesala and Venkat Katta, and was graced by Chief Guest Dr. Bondada Raghavendra Rao, whose presence added immense value to the occasion.

This facility represents ATPOLE's growing contribution to Bharat's infrastructure sector. Rooted in quality and forward-thinking design, the plant sets the stage for scalable innovation. It stands as a symbol of purpose-driven growth, engineering excellence, and the ambition to electrify progress.

"Bondada Group Marks International Yoga Day with Purposeful Practice"

To commemorate International Yoga Day, Bondada Group organized a revitalizing yoga and meditation session, reinforcing its commitment to workplace wellness. The gathering was attended by Shri Dr. Bondada Raghavendra Rao, alongside senior leaders Mr. Baratam Satyanarayana, Mr. D. Umamaheswara Rao, and Mr. MVD Prasad.

Conducted by renowned instructor Mr. Narender Reddy Pati, the session focused on mindfulness, stress reduction, and mental clarity. The strong participation underscored a shared belief that physical and emotional well-being are key to sustained performance. At Bondada, wellness is not an initiative, it is an integral part of the company's evolving culture.

"Bee-lite Completes Two Years of Smart Illumination"

Bee-lite, a subsidiary of Bondada Group, marks two impactful years of innovation in energy-efficient lighting. The occasion was graced by Dr. Bondada Raghavendra Rao, whose strategic guidance continues to shape its growth, and Mr. Ravi Guturi, Director of Bondada E&E Pvt Ltd, whose leadership has driven consistent progress.

From homes to industrial corridors, Bee-lite has brought sustainable brilliance to every corner it touches. With a focus on reliability and intelligent design, the brand remains committed to powering Bharat's brighter, smarter tomorrow, one efficient light at a time. The journey of excellence is only just beginning.

Beyond Business

"A Gesture of Compassion and Care"

Demonstrating the values that define his leadership, Dr. Bondada Raghavendra Rao extended financial support of ₹25,000 for the heart transplant treatment of Mr. Bachu Kumararavu from Avanigadda Mandal. The aid was transferred directly to his spouse's account, ensuring timely access to critical care. This act of empathy reflects a deeper philosophy, where service is not symbolic but lived. Across communities, Dr. Rao's gesture is seen as more than help; it is hope realized. At Bondada Group, compassion remains a cornerstone of impact.

"A Legacy of Giving, A Vision of Service"

In a defining act of philanthropy, Dr. Bondada Raghavendra Rao has extended a generous contribution of ₹5 lakhs to Seva Bharathi Trust, the highest ever by a non-trustee. This gesture reflects his unwavering commitment to transformative community upliftment. More than financial aid, it is a testament to leadership rooted in purpose and compassion. At Bondada Group, we recognize this moment as more than a milestone. It embodies the values we stand for service, responsibility, and Nation-Building through meaningful action.

"A Drop of Blood, A Lifetime of Hope, Bondada's Humanitarian Drive"

In a heartfelt act of community service, Bondada Group organized a blood donation camp in collaboration with Rotary International and Aarohi Blood Bank at Bondada EcoBuild Pvt Ltd, Ankireddypally. Dedicated to supporting children with Thalassemia, the drive saw 101 registrations and 75 successful donations, collecting over 30,000 ml of life-saving blood.

Inspired by the vision of CMD Dr. Bondada Raghavendra Rao and supported by CFO Mr. Satyanarayana Baratam, the initiative reflects Bondada Group's commitment to service beyond infrastructure, one that uplifts lives and fosters lasting social impact.

"Bondada Group Upholds the Spirit of Gau Seva"

Honoring the timeless values of Sanatan Dharma, Bondada Group contributed ₹25,000 to Swarna Ganga Gomatha Divine Home. Located near Kesaragutta Temple, this sacred shelter nurtures 112 cows, calves, and bulls under the devoted care of Mr. and Mrs. G. P. Raman. This gesture reflects our reverence for Gau Mata, an enduring symbol of purity, abundance, and spiritual grace in Bharat's tradition. At Bondada Group, we believe that true progress embraces heritage. Supporting such causes reinforces our commitment to dharma, compassion, and service that uplifts both society and soul.

Passion in Practice

Mr. K N V Praveen Kumar

General Manager – Solar Projects

“Strategic Vision in Action.”

A proven executor in solar infrastructure, Mr. Praveen Kumar brings over 15 years of experience to Bondada Group, driving timely, high-quality project execution. Known for his field agility and strategic foresight, he leads operations across challenging terrains, advancing the Group’s renewable energy growth and supporting Bharat’s green ambitions. A true champion of execution excellence.

Mr. N S V V Satyanarayana

Assistant General Manager – Telecom (BSNL 4G)

“Where intent meets execution.”

Guiding Bharat’s BSNL 4G rollout with unmatched clarity, Mr. Satyanarayana leverages 12+ years in telecom to deliver with strategic intent and operational precision. His leadership ensures seamless execution across regions, turning infrastructure into impact. Every tower he delivers strengthens Bharat’s vision for digital inclusion, reliable connectivity, and Nation wide progress.

Mr. R Nani Babu

Senior Manager – Finance, Costing & Accounts

“Excellence with accountability.”

A trusted financial strategist, Mr. Nani Babu draws from over 11 years of expertise to reinforce Bondada Group’s fiscal strength. Through disciplined budgeting, strategic planning, and cost optimization, his analytical precision and financial stewardship support sustainable growth, operational stability, and long-term scalability, fortifying the Group’s financial foundation for the future.

Smt. B Sandya

Senior Executive – Administration

“Empowering progress with efficiency.”

The backbone of administrative excellence at Bondada Group, Smt. B Sandya brings a decade of experience in ensuring seamless coordination, efficient infrastructure, and smooth daily operations across departments. Her disciplined approach and calm leadership foster productivity, making her an essential pillar in sustaining the Group’s structured, supportive, and high-performing work environment.

Mr. Mekala Rajashekar

Senior Executive – Human Resources

“Shaping culture through fresh perspective.”

In just a year, Mr. Rajashekar has brought energy and precision to Bondada Group’s HR team. From talent acquisition to employee engagement, his people-first approach fosters a culture of inclusivity and agility. His contributions support the Group’s vision of building a purpose-led workplace where talent thrives and organizational growth is people-driven.

Bondada Group gets 400 MWh BESS project in Tamil Nadu

The project will deploy standalone grid-scale BESS facilities with a total capacity of 400 MWh at two locations - Vellalaviduthi and Thennampatty - in Tamil Nadu.

The initiative is aimed at boosting grid stability, integrating renewable energy, and managing peak power demand in the state.

The project will be executed under the build-own-operate (BOO) model, with the group emerging as the successful bidder through a competitive tendering process conducted by TNGECL.
